Exact area of Skills

Engineered Systems

- Maintaining **Mechanical Equipment** within an Engineered System
- Maintaining **Electrical Equipment** within an Engineered System
- Maintaining **Fluid Power** Equipment within an Engineered System
- Maintaining **Process Controller** Equipment within an Engineered System

Engineered Systems

- Carrying Out Preventative Planned Maintenance on Engineered Systems
- Carrying Out Condition Monitoring of Plant and Equipment
- Assisting in the Installation of Equipment to Produce an Engineered System

Instrumentation and Control

- Carrying Out Fault Diagnosis on Instrumentation and Control Equipment and Circuits
- Maintaining Instrumentation and Control Equipment and Circuits
- Carrying Out Preventative Planned Maintenance on Instrumentation and Control Equipment

Instrumentation and Control

- Repairing/Overhauling Instrumentation and Control Equipment
- Testing and Calibrating Instrumentation and Control Equipment and Circuits
- Assisting in the Installation of Instrumentation and Control Equipment
